

Cable Tie

Cable Tie 4,8 x 200 mm

High-quality Polyamide 6.6 cable ties, 4.8 x 200 mm in brown. Ideal for industrial use, easily removable. Pack of 100 pieces for professional applications.

DESCRIPTION

Our high-quality cable ties made from durable Polyamide 6.6 provide a reliable and long-lasting solution for all organizational and bundling needs in the professional sector. With dimensions of 4.8 mm in width and 200 mm in length, they are perfectly suited for a wide range of industrial applications, from efficient cable management to the secure fastening of components in production environments. Polyamide 6.6 is distinguished by its high toughness, durability, and excellent resistance to environmental factors. These characteristics ensure consistent performance under demanding conditions. The cable ties are available in a neutral gray that seamlessly blends into various settings and are also offered in brown to meet your specific requirements. With a package of 100 pieces, we provide a cost-effective solution for use in large projects or ongoing maintenance. Additionally, the cable ties can be easily removed with a simple cutting tool, allowing for flexible adjustments or removal as needed. Our cable ties are a practical and environmentally friendly choice for your business, as Polyamide 6.6 is recyclable. They offer a safe, efficient, and reliable solution for a wide variety of industrial needs.
